

Dear Customer

We would like to give you the latest update on the outbreak of Novel Coronavirus and any impact to MMAB operations in China. We are closely monitoring the situation as part of our strong commitment to ensure the safety of our employees whilst working towards mitigating any possible impact to our customers' operations. The situation as of today, 18th of February 2020 is as follows:

- All MMAB's suppliers have taken the necessary steps to prepare their plants for production and to prevent the spread of the Corona Virus.
- Our Suppliers have cooperated with local authorities and received permission by the local government to open their plants and are now all operating again but with limited capacity
- Pick-up by Forwarders at Suppliers has now started on a more regular basis. However, there are still limitations.
- A close dialogue is held with our suppliers and forwarders to avoid interruptions of deliveries as much as possible.
- Our team is continuing to monitor the situation closely, working with all governmental regulations as they evolve. If our customer's shipments are impacted, we will work closely with our customers to determine the best course of action for any affected shipments.

Should you need further information, any concerns and/or queries, please feel free to contact your local MMAB account managers.

Yours faithfully,

Carl Lidén

CEO
MMAB Group AB
